Email: parasrajput@gmail.com
Mobile: +91-8273436813

SKILLS

Languages: C++, Java, Python, JavaScript, C
Databases: MongoDB, MySQL, Redis
Backend & Deployment: FastAPI, Flask, Azure, AWS
Machine Learning & AI: TensorFlow, PyTorch, Scikit-learn, XGBoost
Tools/Platforms: Git, GitHub, Google Colab
Soft Skills: Communication, Problem Solving, Teamwork, Adaptability

INTERNSHIP

Summer Internship | Software Developer Intern | ByteXL — Jun'25 - Jul'25

- Developed, tested, and successfully maintained web-based applications and responsive user interfaces, resulting in a 20% enhancement in user experience and a 15% increase in client retention.
- Collaborated closely with designers and project managers, ensuring seamless delivery of high-quality software solutions that exceeded client expectations by 25%.
- Contributed across the full Software Development Lifecycle (SDLC), from requirement analysis to deployment, ensuring high-quality deliverables through rigorous testing and iterative development.

PROJECTS

Cryptocurrency Sentiment Analysis Pipeline | GitHub — Mar'26 - Apr'26

- Architected a real-time cryptocurrency sentiment analysis system using Twitter and News APIs, processing 50K+ social media posts and news articles for sentiment prediction and analytics.
- Designed an NLP pipeline for data collection, preprocessing, TF-IDF feature engineering, model training, and inference; trained an XGBoost classifier that improved sentiment prediction performance by 35% over baseline models.
- Achieved 82% classification accuracy and 0.81 F1-score using an XGBoost-based NLP pipeline, outperforming Decision Tree and Random Forest baselines by 35% via hyperparameter tuning and 5-fold cross-validation on 32K labeled samples.
  ***Tech**: Pandas, Scikit-learn, Plotly, Tweepy, NLTK, Regex*

Expense Tracker – Full Stack Web Application | GitHub — Jan'26 - Apr'26

- Architected a secure and scalable full-stack web application that enables users to efficiently track, manage, and analyze personal expenses with strong authentication and data privacy.
- Implemented a responsive Next.js frontend with protected routes and Axios integration, using bcrypt for password hashing and MongoDB Atlas for cloud-based storage, ensuring a production-ready and scalable architecture.
- Centralized financial data through real-time CRUD operations, optimized API response handling for concurrent request processing, and enabled secure multi-user expense tracking.
  ***Tech**: JWT Authentication, bcrypt.js, Postman, PostgreSQL, REST*

CERTIFICATES

- Microsoft Certified: Fabric Analytics Engineer Associate | Microsoft — Sep'26
- Agentic AI Certified Foundations Associate| Oracle — Jul'26
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate | Oracle — Apr'26

ACHIEVEMENTS

- **Achieved 3★ rating on CodeChef**, demonstrating strong problem-solving skills and consistency in competitive programming contests. — Sep'25
- **Secured Global Rank 4,583 in Codeforces Round (Div. 2)**, competing against thousands of participants worldwide. — Aug'25

EDUCATION

Lovely Professional University — Phagwara, Punjab
Bachelor of Technology, Computer Science & Engineering | **CGPA: 7.9** — Aug'23 – Present
St Mary's Convent Sr. Sec. School — JP Nagar, Uttar Pradesh
Intermediate | **Percentage: 82** — Apr'21 – Mar'22
St Mary's Convent Sr. Sec. School — JP Nagar, Uttar Pradesh
Matriculation |**Percentage: 92** — Apr'19 – Mar'20
