## Training

### Data Structures & Algorithm | ByteXL

Jun 2025 - Jul 2025

- Completed an intensive, hands-on industry-oriented training program focused on problem-solving, algorithmic thinking and coding fundamentals.
- Gained strong proficiency in Data Structures & Algorithms (DSA), covering trees, graphs, recursion, backtracking, greedy algorithms, dynamic programming, sliding window, and hashing techniques.
- Solved and practiced a wide range of DSA and CP programming problems on LeetCode, GeeksforGeeks, Codeforces, and CodeChef, significantly improving time complexity optimization and problem-solving speed.

## Projects

### CryptocurrencySentimentAnalysis | Pandas, NLTK, Scikit-learn, Plotly

May 2026 - Jun 2026

- Architected** an end-to-end NLP pipeline processing 50K+ crypto posts via Twitter & NewsAPI, with NLTK tokenization, stopword removal, and slang normalization across unstructured text.
- Engineered** TF-IDF feature extraction (8K features, unigram–trigram) with enabling accurate sentiment classification across positive, negative, and neutral crypto-related content.
- Trained** an XGBoost classifier achieving **82% accuracy and 0.81 F1-score**, outperforming Decision Tree and Random Forest baselines by **35% in F1-score** via hyperparameter tuning and 5-fold cross-validation on 32K labeled samples.
- GitHub Repository Link: <https://github.com/paras-rajput/CryptoCurrency-Sentiment-Analysis>

### Crypto Market Intelligence Dashboard | Power BI, DAX

Mar 2026 - Apr 2026

- Developed an interactive Power BI dashboard to analyze cryptocurrency market trends, incorporating KPI cards, slicers, and dynamic visualizations for price, market capitalization, and trading volume insights.
- Performed data cleaning, transformation, and modeling using Power Query and DAX, enabling efficient analysis of historical cryptocurrency data and automated metric calculations.
- Designed an intuitive dashboard with **trend analysis, comparative visualizations, and drill-through reports**, helping users identify market patterns and make data-driven investment decisions.

## Certifications

### Privacy and Security in Online Social Media

October 2025

NPTEL— [Certificate Link](#)

### Build Generative AI Apps and Solutions with No-Code Tools

August 2025

Infosys— [Certificate Link](#)

### Data Structures & Algorithm

December 2024

NeoColab— [Certificate Link](#)

## Technical Skills

**Languages:** C++, Python

**Technologies/Frameworks:** Git, GitHub, Google Colab

**ML & AI:** Scikit-learn, Pandas, NumPy, NLTK

**Skills:** Data Structures and Algorithms, Problem-Solving, Adaptability & Analytical thinking

## Education

### Lovely Professional University Punjab

2023 – Present

Computer Science and Engineering — CGPA: 7.76

Phagwara, Punjab

### St Mary's Convent School

2021 – 2022

12th with Science — Percentage: 88

JP Nagar, Uttar Pradesh

### St Mary's Convent School

2019 – 2020

10th with Science — Percentage: 92

JP Nagar, Uttar Pradesh
